## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of claims 3-7 in the reply filed on April 10, 2006 is acknowledged.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, line 5, "a plurality of side walls" is claimed, however, later on in line 10, "first and second opposite side walls" are also claimed. This appears to create double inclusion issues since it is not clear if these are in addition to the plurality of sidewalls or if the first and second opposite side walls are a further description of the plurality of sidewalls. If they are different from the plurality of sidewalls then the cooperative structural relationship between these two different sets of sidewalls needs to be positively recited.

In both claims 4 and 5, the recitation of "a plurality of liquid discharge orifices" is recited, however, in claim 3, only "a liquid discharge orifice" is claimed in a singular sense, therefore claims 4 and 5 are indefinite since a plurality of liquid discharge orifices is being expanded from only one liquid discharge orifice. Language such as --at least one liquid

discharge orifice-- should be used in claim 3, which indicates one or more liquid discharge nozzles. If such language is adopted, then claim 6, line 1, should also reflect the new language (i.e. said at least one liquid discharge nozzle).

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 3-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by

EP0936000.

EP0936000 discloses all the featured elements of the instant invention, note specifically cam surfaces 81/82.

***Allowable Subject Matter***

6. Claim 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ziecker et al shows an adhesive spray gun with a nozzle coupled to a dispenser.
